Fundamentals in Cognitive Robotics

Do you know what is needed to create the robot of the future? In this course on cognitive robotics, you will first be introduced to this exacting and innovative field, where you will learn what is meant by the term 'cognitive' and the different schools of thought that exist as to how to deal with the legal and ethical concerns surrounding the creation of such robots. Sec

Modules Studied

Module 1: The Building Blocks of Cognitive Robotics

Module 2: The Architecture of the Brain

Module 3: Course assessment
